UNLOCK THE MYSTERIES OF THE PLANES—FOR CHARACTERS AND CAMPAIGNS OF ALL LEVELS!

A cursed moon hurtles through the multiverse, crashing from one plane to the next, never at rest, forever fleeing a catastrophe that predates existence itself. Behold the Planebreaker!

The Planebreaker visits all planes, all demiworlds, and all dimensions. Some are known to sages and planar travelers. But in a multiverse stretching across epochs, the number of previously uncatalogued planes is vast. The Planebreaker races through all of them, in time, and the Path that trails behind it creates a route that links them all.

Path of the Planebreaker introduces this enigmatic interplanar object that unlocks access to the planes for characters of all levels.

- ◆ Introduces the planes to any 5e campaign—they're not just for high-level play any more!
- ◆ Details dozens of planes in a DM-friendly ready-to-use format, along with the very cool Planebreaker itself, with its mythic city of Timeborne.
- ◆ For the GM: new creatures, magic items, and adventures.
- ◆ For the players: new playable species, subclasses, feats, and spells.
- ◆ Chock full of MCG creativity and top-notch production values, from the incredible minds of legendary D&D designers Monte Cook, Bruce Cordell, and Sean Reynolds. You know it's going to be awe-inspiring!
