

# The Strange Character Sheets

**As striking and unique as the game itself!**

With the game's world-hopping, character-altering setting, **The Strange** players really go through character sheets—and in particular, the “recursion” portion that details changes to their characters in different settings. This product contains a pad of 20 character sheets and 30 recursion sheets (printed double-sided for two uses each). They're full-color, printed on matte paper that's easy to write on and erase, and will cover an entire party for an entire campaign—and then some.

**The Strange** character sheet sells itself—and it sells **The Strange**! Gamers who see the character sheet's gorgeous, intriguing design always ask about the game.

It only takes a glance to see how much nicer these **The Strange Character Sheets** are than the download-and-print variety. **The Strange** players appreciate the game's elegance and beauty, and once they see these they'll never look at their old laserprinted character sheets the same way.

- **Numenera Character Sheets** were a hot seller, and these will follow in those footsteps
- Packaged as a shrink-wrapped pad with a cover wrap and quarter-inch spine—will shelve nicely beside your other **The Strange** products without getting lost
- Includes a handy character creation walkthrough that players will find useful around the gaming table
- With a low price point, this is a great upsell item!
