PLANAR BESTIARY

A TROVE OF MONSTERS GATHERED FROM ACROSS THE PLANES OF EXISTENCE!

This beautifully illustrated collection is filled with over 150 wonderful, terrible, and weird creatures that add extra-planar excitement to your 5E campaign. Whether your PCs are exploring the Prime Material Plane or beyond, these creatures make exciting and unique encounters.

Challenge your PCs with creatures like the abolisher of sorrow (it erases memories so pleasantly its victims don't realize they're dying), the galvanic scar (that springs from a wizard's lightning bolt to inhabit living bodies), or a vicious dream sprite known as a morpheusian (seeped down from a hidden layer of the Astral Plane after acquiring a taste for the meat of the real). These and scores of other monsters can be encountered in the planes or closer to home!

- ◆ 150 awesome creatures from across the planes and the D&D cosmology.
- ◆ With official content focusing on the planes, 5E players are going to be hungry for more!
- ◆ Encounters at every level—from CR 1/4 up to CR 29 (most creatures are CR 14 or lower).
- ◆ A standalone bestiary: it doesn't require *Path of the Planebreaker* (but definitely complements it).
- ◆ Loaded with the creativity, mind-bending ideas, and stunning art MCG is famous for.
- ◆ Who doesn't want **more monsters!**?
