## PLANAR CHARACTER OPTIONS

### LOADS OF OPTIONS FOR CHARACTERS FROM OR TOUCHED BY THE PLANES!

Planar natives, multiverse explorers, and those touched by mysterious forces leaking through from the planes: these characters are shaped by backgrounds and experiences unlike those found in more conventional environs. From the amethyst fist monk, who channels power through a psionically resonant prosthetic, to a traveller character with a mysterious cosmic map imprinted on their skin, to a character with the Limbo Touched feat, who can change objects at will—characters with ties to the planes are just a bit, well, *different*.

*Planar Character Options* is brimming with new material and new choices to create and advance 5E characters shaped by contact from beyond!

- ◆ Scores of new character species, backgrounds, subclasses, feats, spells, and magic items.
- ◆ Official D&D releases are moving into the planes—this is a timely upsell!
- ◆ Player-focused, giving you five times as many potential purchasers!
- ◆ A companion to the hit *Path of the Planebreaker* (though you don't need that book to make the most of this title).
- ◆ From the incredible minds of legendary D&D designers Monte Cook, Bruce Cordell, and Sean Reynolds. You know it's going to be awe-inspiring!
