Endless quests—and endless horrors—for your players to face!

Gunslinger Knights often swear oaths to undertake quests during their time with the Order. Within this zine, you'll find a systemized quest generator that allows you to create thousands of quests with just a few die rolls—5 separate tables with over 150 unique entries means there are endless possibilities!

But what horrors, pray tell, will your fresh-faced or battle-hardened players encounter on these epic adventures? Two additional tables provide 100 body types and 100 strange and terrible features creating unique enemies, as well as advice for using numberless horrors in your game.

- ◆ Eye-catching zine format stands out from typical RPG products.
- ◆ Inexpensive—an easy upsell for *Gunslinger Knights* buyers or any RPG gamer looking for cool ideas.
- ◆ An amazingly handy GM resource for generating adventure seeds and the terrors the PCs will face along the way.
- ◆ Check out similar products in this format supporting the *High Noon at Midnight* and *Neon Rain* genre books.
- ◆ Got customers looking for a new RPG? The Cypher System is a well-supported game that's easy to learn, easy to play—and easy to sell!
