Do not mistake the forest's quietude for mercy. Nor its shadowed depths as denser versions of these pleasant shallows. For to venture deeper is to become lost in the ancient chambers of the forest's dark heart, where twisted and sinister things dwell.

Discover why humanity has always feared the wilderness...

The Darkest Woods is a horror experience that seamlessly integrates into your existing campaign—no matter what game you're playing. Take your players on an epic subplot and chill them to their cores. Unforgettable encounters will shake even the most battle-hardened characters, while life-altering challenges will forge richer characters, deeper motivations, and more powerful party bonds.

- ◆ Easily integrates into a 5e campaign or any RPG. It's specifically made for the game you're playing now!
- ◆ Hundreds of downloadable maps, illos, handouts, and even audio files to share players—just a QR code away.
- ◆ Challenges players in unique ways. PCs become more deeply developed, and party bonds grow stronger, through these experiences.
- ◆ A worthy followup to the highly successful *The Darkest House*.
